### **"Hasta Cierta Punto"**

#### **Up to a Certain Point**

*This clever, self-reflexive satire about the battle of the sexes in contemporary Cuba tells the story of Oscar, an educated, liberal filmmaker who, in doing research for a film about the social problem of machismo in Cuban society, falls for a female worker from the Havana docks. Unfortunately, his machismo, social and working conflicts, and the Cuban woman's condition interfere with their relationship.*
